OTHERS TO BE ARRESTED,

Only a Few at Work.

HOMESTEAD, Pa., July 18.-The state ment was made Saturday morning that not less than one hundred men were working in the Carnegie mills. Representatives of the United Press, the Pitts-burg leader and the Baltimore News succeeded in getting within the enclosure. They found nothing to prevent a tour through every department of the plant, and as a result can state positively that, all told, not more than from fifteen to twenty men were at work.

A Talk with Mr. Frick. Mr. Frick was seen in his office at Pittsburg Fridny night, and asked if a part of the mills were not in operation. He replied:

"We have already put some men in,

"About sixty, I think; though I must admit I don't know the exact number. There may be more."
"How soon do you intend to introduce

More Ammunition and Artillery. HARRISRURG, July 18.—Governor Pattison has complied with a request for more ammunition and artillery for Homestead.

IN SYMPATY

Pittsburg. PITTSBURG, July 16 .- Thursday evening both the Union iron plants were STRIKERS RETALIATE BY ISSUING closed down and notice posted by the company warning trespassers to keep off the property. About 3,200 men are af-

fected by the strike in the two mills.

Homestead Men Don't Approve. HOMESTEAD, Pa., July 16.-The intelligent Homestead strikers do not entirely approve of the action of the 3,200 men who went out. They say that "sympathetic strikes" have never been successful, and that the men should have had some more solid basis for going out.

MAY REMOVE TO CHICAGO. Messrs. Frick and Lovejoy Refuse to Talk

on the Subject. CHICAGO, July 16.—The Times Friday printed a long article to the effect that the Carnegie manufacturing interests will be removed from Allegheny valley to this city. For several days, it says, a representative of the Carnegie company has been in this city looking over the field with this end in view.

Refused to Talk. PITTSBURG, July 16.—The statemen published Friday morning that the Car negie Steel company contemplate the re moval of their business interests to Chi cago, and that land has been purchased there to be used for the re-establishment of their plant is, according to a state-ment from Secretary Lovejoy to a re-porter of the United Press, entirely without foundation. Messrs. Frick and Lovejoy positively refused to talk Fri day morning on any subject pertaining to the present situation or their plans for

NO ADDITIONS

the future.

To the Small Non-Union Force That

Worked Saturday. HOMESTEAD, Pa., July 18.-Quiet morning. Not a striker returned to work Monday morning and as far as can be ascertained no additions has been made to the non-union force.

To fill their places will be

Extremely Difficult.

as the appliances at the Carnegie mills work under guard.

Criminal Proceedings.

PITTSBURG, July 18.—The Carnegies are only biding their time to see if the county authorities will not commence criminal proceedings against the men who repulsed the Pinkertons on July 6. seen at sea. Poles and sides of huts If the authorities do not Mr. Frick himself will swear out warrants. The names of over 200 of the strikers who were in the mob are in possession of the company's attorneys.

All Sorts of Rumors. HOMESTEAD, Pa., July 19 .- Rumors of the number of non-union men already inside the works, and of the others al ready on the road are thick and fast but all of them when traced up display doubtful aspects. It is said that eight men are coming from Ohio.

The advisory committee has heard of efforts to enroll mechanics in Chicago and St. Louis, supposed to be for the Carnegie company, but after all the Carnegie company, but after all the rumors are sifted down, there is no truth to be found at the bottom of them, and those correspondents who are try ing to send out the real state of the case in Homestead are forced to depend only upon what they see with their own eyes. A case in point is furnished by the rumor started Sunday that three boot loads of non-union men had been diseru barked at the works. One gentle man saw these men going into the mills. and so reported, and yet the men are not there, and did not go in as stated.

A Quiet Sunday.

Homestead, July 19.—All was peac here on Sabbath day. Up to a late hour last night no new men had been admitted through the Carnegie gates. The formal reopening of the gates is expected to take place on Thursday, and meanwhile the Carnegie people are confident of securing all the non-union men they desire, should the strikers remain stub born and refuse to return to work.

Another Pinkerton Dead. PITTSBURG, July 19.-Edward Spear, a

resident of Chicago, one of the Pinkerton detectives, died about midnight Sun day night. He had been shot in the right leg during the battle on the barges at Homestead on Wednesday, the 6th inst. He was taken to the West Pennsylvania hospital that evening with the others and was not regarded as seriously hurt. His wound was near the thigh and his death is attributed to exhaustion.

The Governor Arrives. Physicus, July 19.—Governor Pattison and staff, occupying two special cars, arrived at Wilmerdering, fifteen miles out of the city, shortly before 10 o'clock Tuesday morning. The train was sidetracked for a short time and then proceeded via the Pennsylvsnia company bridge to Homestead, without touching this city. The governor will

remain until Saturday. Behind the Bars.

PITTSBURG, July 19 .- Monday night Secretary Lovejoy, of the Carnegie company, swore out warrants for the arrest of Burgess McLuckie, of Homestead, of Burgess McLuckie, of Hollasteau, and Hugh O'Donnell, Sylvester Critch-tow, Anthony Flaherty, Samuel Burke, James Flannigan and Hugh Ross, the latter six Homestead workmen. The burgess was arrested and placed in jail without bail. The men are charged with the murder of Connors and Wayne, two Pinkerton men who died from injuries received during the riot on the morning of July 6.

Will Retaliate. The strikers will retaliate by swearing out warrants for the arrest of Frick, Carnegie, Lovejoy, William and Robert

Phikerton and others, charging them with murder and treason.

Tuesday morning both sides were resting on their arms awaiting develop-ments. Not one of the strikers appeared

at the mills and asked for work. tary Lovejoy said a number of men were being smuggled in daily and nightly and that by Thursday the mill would be reopened.

More Arrests to Be Made. PITTSBURG, July 19 .- Shortly after p. m. Tuesday Secretary Lovejoy appeared before Alderman McMasters and swore to informations against fifteen Homestead men.

More Troops. PHILADELPHIA, July 19.—It was stated here Tuesday morning that the First brigade, which had been in camp at Mount Gretna for the past ten days, had been ordered to Homestead.

The Governor Refused to Talk. HOMESTEAD, Pa., July 19 .- It was reported here Tuesday that the First brigade had been ordered to Homestead with eight days' rations. Governor Pattison was questioned on the subject, but refused to either confirm or deny the report.

Big Profits.

PITTSBURG, July 19 .- A Sunday paper printed elaborate tables of figures, going to show that the profit on a ton of acid open hearth steel in Carnegie's plant in July, 1889, was \$14. On basic open hearth the profit is said to be \$16 per ton. Since 1887 the cost of labor has been much lower. The cost of 4x4 steel billets is not given.

Work Not Resumed. BEAVER FALLS, Pa., July 18 .- Work was not resumed Monday morning at the three plants comprising the Carnegie interest at this place. Superintendent Wrigley, who was at the general offices at an early hour, did not receive a single application for work and the start of the mills has been indefinitely postponed.

TWELVE THOUSAND DEAD.

Volcano Destroyes an Island in the Malay Archipelago with Awful Results. LONDON, July 19.—The steamer Catterthun, which has arrived at Sydney, N. S. W., reports that when she touched at the island of Timor there was a rumor current that the island of Sangir, in the Malay Archipelago, had been destroyed by a volcanic eruption, and that the whole population, comprising 12,000 souls, had perished.

A native from the Talatee islands, who landed at Selangen four weeks ago, brought a remarkable story to the effect that several other natives are in advance of those of any steel works in this country. Even if men capable of doing the work are found, it will be no easy matter to induce them to sight of mountains belching forth smoke and fire. They reported that the "whole island was on fire."

The captain of the Catterthun says she passed through miles of debris dissimilar from anything he had before were mingled with such utensils as the natives of the Philippines use in cooking, besides charred human trunks. The ship was three hours and a half in passing through the wreckage.

These reports are partially credited, although they are believed to have been exaggerated.

The formation of Sangir is volcanie and several small craters near the center of the island are known to have threatened activity during the last ten months. late war. He was forty-nine.

NATURAL GAS.

It Causes a Horrible and Fatal Accident on a River.

EAST LIVERPOOL, O., July 19 .- At Beaver Home, just above here, a natural gas pipe crosses the river. Saturday the steamer Jane Wood was going up the river and struck the gas pipe, breaking it and allowing the gas to escape.

The gas bubbled up through the water and caught fire from the flame in the furnace of the boat, and in an instant the whole boat was affame. The engineer was roasted to death at his post, and a negro roustabout was thrown the length of the boat, being killed almost instantly. The gas continued to burn in the middle of the river, and other boats were compelled to tie up until the flow was shut off.

House Disagrees.

Washington, July 19.—The house has disagreed to all the senate amendments to the paragraph relating to the appropriations for the world's Columbian commission.

To Close on Sunday. Washington, July 19 .- On a viva roce vote the proposition to close the fair on Sunday was carried in the senate by a vote of 102 to 72.

When Gloves Are Not Worn.

No matter how often we are told or how vell we know ourselves that it is bad form to go without gloves, the temptation is sometimes so great, especially now, that we forget all about it and go barehanded into the street, and when we once get out into the country gloves are never to be seen on us unless we are positively compelled by occasions of ceremony to appear in them. Therefore it behooves us to take great care of our nails and our fingers, so as to present white, well cared for hands to the general public.

No matter how lovely your rings may be. they certainly will not ornament but de tract from your appearance if your hands are not in keeping with the flashing jewels. A clean, soft hand, with nails well cared for, is far more attractive than one upon each coarse, red finger of which their bitten fortune. Wash your hands thoroughly with pure soap and warm water, using the nailbrush freely. Press the skin gently back from the nails, and if there is any discoloration a little lemon juice or pumice stone will remove it. File rather than cut the nails, and use an ivory or wooden pick with which to clean them, as scissors or any other sharp pointed metal instrumen are very apt to roughen the under edge. At all times this care should be use but especially now, when the hands are so much more an evidence,-Philadelphi

Captain of a Lake Eric Schooner Dis-

covers a Sea Serpent. TOLEDO, O., July 19 .- The schoon Madeline Downing has arrived in this port. Early last Wednesday while the schooner was on its way from Buffalo to this city, and was passing the Dunning, about one hundred and fifty miles east

of here, in Lake Erie, Captain Patrick Woods saw, about half a mile ahead, the waters of the lake lashed into a foam. Drawing near, to the surprise of the

Drawing near, to the surprise of the captain and all on board, a huge sea serpent, wrestling about in the waters as if fighting with an unseen enemy, was seen. It soon quieted down and lay at full length on the surface of the water. Captain Woods estimates it to be about fifty feet in length, and not less than four feet in circumference of body. Its head was projecting from the water. Its head was projecting from the water about four feet. He says it was a terri-ble looking object. It had viciously sparkling eyes and a large head. Fins were plainly seen, seemingly sufficiently large to assist the snake in propelling itself through the water. The body was dark brown in color, which was uniform all along. From what he says it would be capable of crushing a yawlboat and its occupants.

As the vessel passed on its course the snake was seen disporting itself in the lake. At the time he saw it the lake was calm, and there could have been no

mistake in recognizing the object. NEW MONEY-ORDER OFFICES.

Ohio Towns Which Will Be Benefited by the Recent Act of Congress. Washington, July 18.—The following towns in Ohio have been made money order offices:

He leaves a wife and three small children Near Mount Eaton, O., John Ricksecker, his father, wife and daughter took shelter

under a load of hay during a storm. Lightning struck the load consuming it. The young lady will probably die. At East Liverpool, O., a cloudburst flooded hundreds of cellars. Several buildings were undermined. Lightning burned out the telephone system. Numerous washouts on the railroads in the vicinity.

OHIO FISH.

Arrangements For Their Display at the

World's Fair. COLUMBUS, O., July 18 .- The executive commissioner has made application for 1,500 square feet of space for the Ohio exhibit in the department of fish and fisheries, which will consist of mounted specimens of all the species indigenous to Ohio waters. The of the work of preparing the exhibit has been placed by the commission in the hands of Mr. Charles Kinney, who will visit Cincinnati, Cleveland, Toledo and Sandusky for the purpose of consulting with parties engaged in the fisheries in-dustry with reference to obtaining speci-

The time in which applications for space at the world's Columbian exposi-tion must be filed has been extended by the Chicago authorities from the 15th of July to the 20th, and Hon. Daniel J. Ryan, executive commissioner, requests that all persons intending to exhibit, prepare their applications at once and forward to Hon. George R. Davis, director general, Chicago.
